SEA STAR T-PIN TILE LEVELER

REUSABLE TILE LEVELER FOR SMOOTH AND AESTHETIC, LIPPAGE-FREE FINISH. EASY TO USE FOR BOTH PROFESSIONAL AND BEGINNER TILE FIXERS.

DESCRIPTION

SEA STAR T-PIN TILE LEVELER is a professional system that eliminates “LIPPAGE” by flattening adjoining tiles making them level across grout lines. TILE LEVELERS are made from steel PIN easy in placing and adjusting tiles. The easy way to achieve a more professional tiling finish. Holds tiles in place and eliminates movement due to conditions like “slumping” of tiles on floors (or walls) that occur during installation while setting materials dry. Speeds installation and extends setting material coverage and does not contribute to voids or hollow spots under tiles when proper troweling techniques are used.

FOR PERFECT TILE –TO–TILE FINISH

- Reusable, easy to use.
- Saves time and money with less effort.
- Improves speed of tile laying.
- Suitable for upto 12mm thick tiles.
- May be combined with regular TILE SPACERS.

ADVANTAGES TO THE INSTALLER

- Very easy to learn and use at any skill level
- Great to use with tiles of varied thickness.
- Requires minimal effort to install and remove.
- Eliminate lippage
- Prevents tile from moving during the installation
- Speeds up installations

USAGE INSTRUCTIONS

- Insert T-PIN leveler in between the tiles.
- Twist T-PIN 90 degree to lock between the tiles.
- Twist adjusting cover (lower part) to level the tiles.
- Tighten with wrench (tool) if needed to adjust the tiles perfectly.
- Leave to fix the tiles for 24 hours.
- Twist T-PIN from the top to remove.

PACKAGING

Available in bags containing 50 pieces T-PIN and 01 piece WRENCH (tool).
